

Pre-K Through 2nd Grade

# My Math Academy<sup>®</sup>

## Accelerate Growth!

*My Math Academy* is a standards-based program that is aligned to the **Utah Core Standards for Elementary and Early Learning**. *My Math Academy* blends proven learning science with **game-based** activities that **adapt to every student's individual learning path**:

- ✓ High-interest activities sustain engagement for all students, including **pre-K through 2nd grade**
- ✓ Embedded diagnostic and formative assessments identify specific areas of understanding
- ✓ Eligible for all Title and ESSER funding and **ESSA Rating Strong**

### Remarkable Results

In 2020–2021, students who used *My Math Academy* for **less than one hour per week for 10–12 weeks experienced significant gains**.

### Highly Engaging

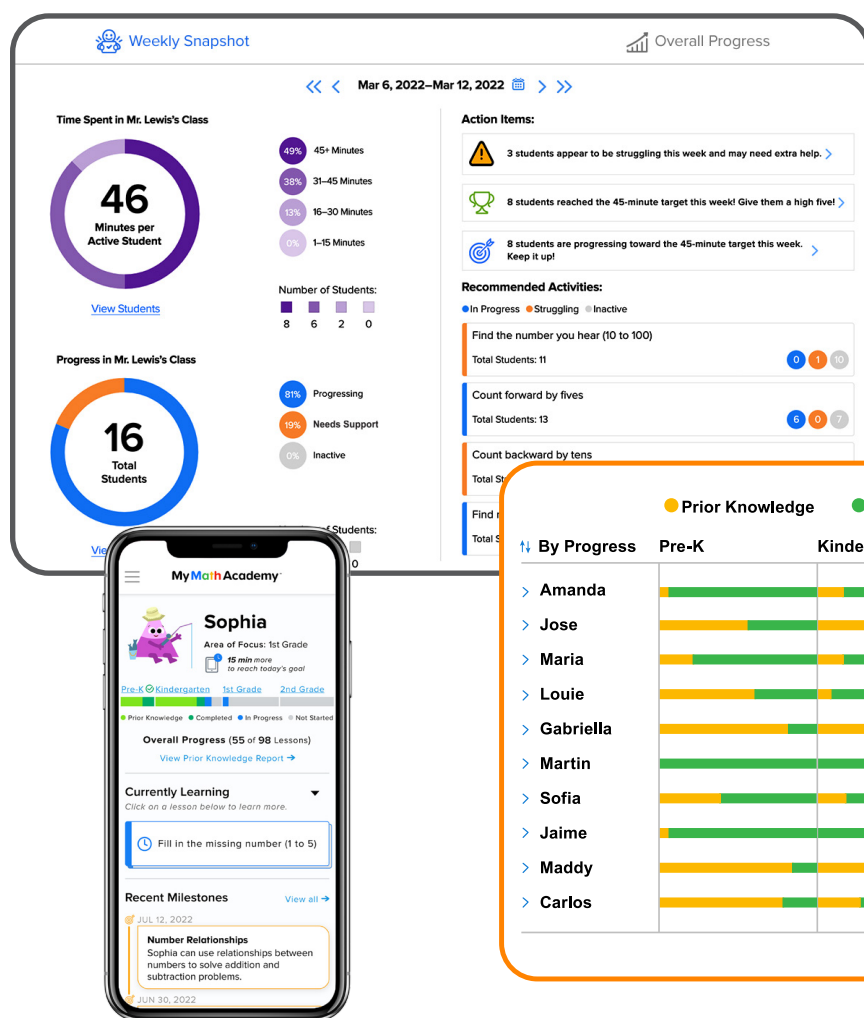

The interactive Shapey characters help students apply mathematical concepts to **real-world experiences** that support rigor and grade-level expectations.

### Easy Implementation

Perfect for teachers of all experience levels and a **variety of classroom configurations**, the program provides rapid system set up, training, and a dedicated support team.

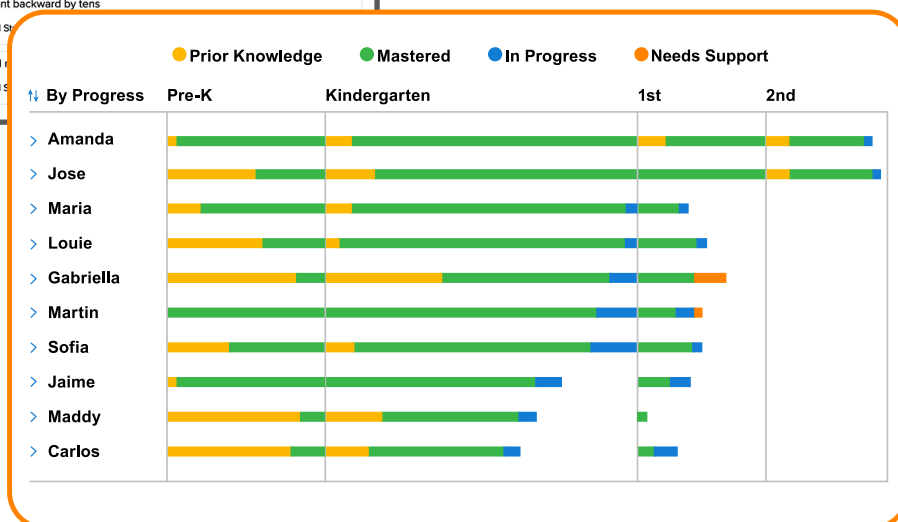

## Target Instruction, Elevate Outcomes

The **Teacher Dashboard** provides deeper insights into individual student needs and skill levels through real-time data, feedback, and easy-to-view analytics. Filters recommend student groupings, and related offline activities support differentiated instructional decisions.

**Insights at the student, school, and district level** help give students access to the resources they need:

- Track usage and implementation
- Monitor skill mastery progress.
- **Measure against the Utah Core Standards for Elementary and Early Learning**
- Access recommended activities.

### Color-Coded Performance Data

The **Family Portal** enables families and caregivers to view their child's progress and access at-home support resources.
